

AWCL-120-6P

Mini 6 Programs RGB Controller

Data Sheet

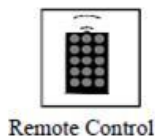

1. Features

- Support IR-remote control interface ◦
- R、G、B brightness can be adjusted individually, and auto-save the setting ◦
- Built-in six LED dynamic programs; dynamic mode can be set Fade/Jump and changed the dynamic speed.
- The maximum output current is 2A x 3 channels, that is 72W/12V or 144W/24V ◦

2. Specifications

Operation Voltage	DC10V~30V ◦
LED Output Power	72W/12V or 144W/24V
LED Module Type	Constant Voltage with constant current or Constant voltage with limit voltage.
Max output current	2A/channel x 3 channel
Weight	73g
Size	L:100mmxW:45mmxH:30mm
Operation Temperature	0°C ~+50 °C
Storage Temperature	-10°C ~ +60 °C

1.67 Million Colors

Output power: DC24V/144W; DC12V/72W
